

Total Solutions for Architects, Engineers, Facility Managers and Real Estate Owners

CaddFX is a full service A/E/C CAD and BIM support firm. We provide Construction and Project Management services to our clients. We are also a Value Added Reseller of Autodesk® products, which are the core tools of our A/E/C customers.

BIM Solutions Experts

We can recommend the right Autodesk® solution for organizations because we use these same software tools to provide our support services. Our goal is to lower cost by efficiently bringing our customers' designs to the market.

CaddFX is one of a few firms with experience in delivering As-Built building documentation and mapping services.

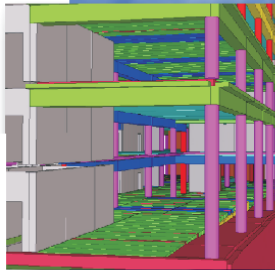

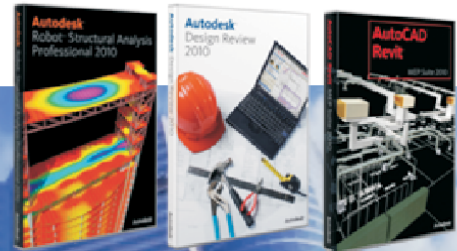

Our solutions include implementation, training, and support to meet your organization's specific requirements.

Autodesk®

Authorized Value Added Reseller
